

911 INFORM

MAKE EVERY SECOND COUNT

Monitor and communicate during **any** emergency.

The only notification and security management platform that assists communication between local authorities and your organization.

911INFORM is a browser-based software that allows you to integrate 911inform with your current phone system. No app needed.

FEATURES

Trigger notifications via web, desktop or mobile phones

Full detailed floor plans overlaid on Google Earth

Integration of door and strobe control

Medical team notification with AED locations

Missing personnel tracking video camera integration directly on floor plan

LTE backup (911 works without internet or phone service)

Fully customizable to meet client requirements

Every **60 seconds** a heart attack victim goes without CPR, his chances of survival decrease by **10 percent.**

911INFORM is an all-encompassing emergency system that empowers first responders to:

Pinpoint location of an emergency call's origin while simultaneously notifying local authorities

Instantaneously access detailed maps and visuals of your premises

Instantly text key on-site personnel

Instantly control the building's security systems – including doors, lights and security cameras.
